Nome Azienda: Namirial SPA

sito web: www.namirial.com

Breve descrizione Azienda (max. 750 caratteri spazi inclusi):

Namirial isn't just another tech company, it's an innovation ecosystem shaping the future of digital transformation across Europe and beyond. Headquartered in Senigallia, Italy, with a growing international presence, Namirial is a global leader in Digital Transaction Management and Digital Identity Solutions, simplifying complex processes through secure and intelligent digital experiences. Founded in 2000, the company has grown into a digital unicorn valued at €1.1 billion. In 2025, Bain Capital's acquisition opened a new chapter, accelerating Namirial's evolution toward an AI-First company.

Partecipiamo al Career day perchè: (max. 400 caratteri):

We participate in the Career Day to connect with talented students interested in digital innovation and to present career opportunities at Namirial. We will also introduce the Namirial SkillUp Academy, developed together with the University of Naples Federico II, designed to train young professionals for key roles in tech and digital transformation.

Il nostro candidato ideale (max. 400 caratteri):

We don't believe there is a single "ideal candidate." We look for curious, passionate people with a proactive mindset and strong soft skills such as teamwork, adaptability and problem solving. A background in tech or digital fields is important, together with a genuine interest in innovation and values aligned with Namirial's culture.

Le nostre aree di interesse (max. 250 caratteri):

Our areas of interest include Software Development, Quality Assurance, Project Management, Digital Transformation, Cybersecurity and AI, focusing on skills that drive innovation and business impact.
